

TECHVISE SPEAKERPHONE - UC1002

For small to medium group conference

Uc1002 conference speaker phone is specially designed home based worker, on-line education, and small to medium business conference room, to replace the PCs and mobile phone's speaker and microphone with outstanding audio quality.

Plug and Play USB connection

Easy connect to your PC or laptop via USB and Mobile phone via phone cable works great with PC & Mobile based communication softphone i.e Skype, Zoom, Hangouts, Duo, WebEx, Trueconf etc.

Integrate with video conference system

Professionally designed to work with video conference systems, provide perfect and cost-effective audio endpoint solution to your and video conferences.

Enjoy Rich, Clean and Crisp audio play back

Full band frequency response and advanced Crystal-Sound audio processing technologies deliver remarkably rich full audio for natural, effortless conversations.

Ultra-low power consumption

USB power consumption for 1amp max, works with ultra low power supply, no worry of drawing too much power from your PC or video conference system.
